SIMPLE AND FUNCTIONAL DESIGN

The PTT Smart Button features a push-to-talk, multifunction, and emergency button in a robust design that can withstand the harshest environmental conditions and accidental user damage.

HIGHLY COMPATIBLE

The PTT Smart Button is compatible with Android and iOS smartphones. Users can pair their device with AINA's own, simple and intuitive push-to-talk application, AINA Small Talk, or other partner PTT apps.

MULTIPLE USES AND USERS

The PTT Smart Button can effectively be used across different industries and in working environments that require simple, undistracting push-to-talk communication devices. Stay connected all the time.
