

AINA KEPLER

AINA Kepler is an all-in-one communicator with mobile network connectivity, device-to-device communication and integrated PTT application.

SIM CARD

AINA Kepler uses a SIM-card to connect to the server and mobile network (3G/4G/LTE). As a stand-alone device it says farewell to compatibility issues and app changes breaking the system.

DEVICE-TO-DEVICE COMMUNICATION

AINA's Direct-Mode-Operation (DMO) allows you to communicate even when your mobile network is not available. Do your job and stay connected all the time.

INTEGRATED PTT APPLICATION

Use AINA Small Talk or a partner PTT application straight from your AINA Kepler. Communicate with an unlimited number of groups and users, and make emergency calls.

AINA KEPLER
